The Editor of the Times—Sir:

There is every probability, as il learn from pretty reliable sources, that the Atlantic and Pacific will come to Los Angeles, and that very soon! It will want an outlet to the sea, at our port of San Pedro, (even if it should go on up the coast to San Francisco as its objective point), in order to save 500 miles unnecessary hauling for its coal and other heavy freight that it would resource the street cars. Your correspondent, being among the lucky lodgers on Exposition Boulevard, heard the closing chimes of the old year, and the opening numbers, on the continental railroad come to our city continental railroad come to our city with an ocean outlet at San Pedro? with an ocean outlet at San Pedro?
And this raises the question: Is it not time for our Supervisors to call a halt in the matter of granting wharf privileges to private parties for merely specuin the matter of granting wharf privi-leges to private parties for merely specu-lative purposes? Harbor facilities are getting to be mighty scarce in this part of the world, and if we have any left, and they can be used to induce another continental road to come this way, the transcendent importance of such an en-terprise and its benefits to our section are so great that we should be prepared to welcome to adequate deep-water fa-cilities within our port such a road, if it will only come Lat the if it will only come. Let the Supervisors see to it that we are not bankrupted in this respect if such a road does come knocking at

its promoters with open arms and sub-stantial inducements.

Two continental railway lines ending at San Pedro would be a fact big with importance to Les Angeles and to the future State of South California!

I shall recur to this matter again. These are correct views, well expressed, and the opinions and statements advanced deserve respectful cou-

It would be monstrous to say that a second and competing line of railroad should not be accorded a fair entrance into our borders and an ocean outlet on our shores upon terms just to both of the contracting parties.

Carried. Date of such visit fixed for January 13.

Supervisor Hinds moved that the County Surveyor define the exact line of the road running from Compton to Santa Monica, where the said road passes through the land owned by H. Quimby. Motion carried.

On motion of Supervisor Ross, the allowance of office rent for the District Attorney was fixed at \$25 per month, instead of \$20, which it has been.

The following report of the District Attorney, in regard to special school tax levy in the Newhall School District, was read, "and find that the amount voted to be raised by the said district was \$1500. The value of the taxable property of the said district, as furnished by the County Assessor to the Board of Supervisors upon which to levy the said tax, was \$223,865, and that the rate fixed by the Board levying said sum of \$1500 upon the amount of taxable property of the said district as furnished by the Assessor as aforesaid, was 65 cents upon one hundred dollars. But that the amount of taxable property furnished by the Assessor did not include the property of the railroad company within the district, which lude the property of the railroad comproperty within the said district upon which the levy should have been made was \$393,979. That had the said levy

been made upon all the taxable prop-erty of the district as provided by Sec-tion 1837 of the Political Code, the rate of the said special tax would have rate of the said special tax would have been only 45 cents on the hundred dollars, making the taxs as now levied 20 cents on the hundred dollars in excess of what it should be. From this computation the special school tax of the railroad company for the said district should be \$765.78 instead of the sum of \$1106.13.

There is no doubt but that the sa special tax as levied is illegal, and that the payment thereof cannot be enforced.

District Attorney. Adjourned until to-day at 10 o'cleck

The Los Angeles papers for some ause maintain a brilliant silence over the matter of the extension of the California Southern Railroad through the callow Boy placer claim, in San Gabriel casion. the matter of the extension of the California Southern Railroad through the Cajon Pass. It is but a short time the Cajon Pass. It is but a short time since, if memory serves aright, that they regaled us daily with accounts of the impossibility of a railroad getting through the Pass, and prophesied that such a road, despite the fact that it had been located, would never be built. Our Los Angeles friends knew more themt the current and grades in the Our Los Angeles friends knew more about the curves and grades in the Cajon than did the surveyors who ran the line, and they assumed with a pertinacity of repetition that looked as though it sprung from interested motives, that the grade of the Cajon was so great that it was impossible for a railroad ever to get through it, and that San Bernardino would never see it built. But they told us, too, even when the California Southern was running, that the road would not be built, and abut their eyes to the fact that it really did exist. Now, for the information of the engineering corps of our Los really did exist. Now, for the information of the engineering corps of our Los Angeles contemporaries, we volunteer the information that the California Southern is a fixed fact; that it extends from San Bernardino to San Diego; that it is now building to a connection with the A. and P. on the Mojave desert; that it will follow the Cajon Pass with its insurmountable grades and impossible curves; that there are at present between 400 and 500 men.at work on it and more comming; and that within a few months the iron horse will be traveling up the impossible grades with trains of the contemporaries of the contemporaries in his wate.

Siccks buoyant throughout the day, and such slight reactions as occurred were invariably followed by purchases for both short and long accounts. The principal reason for the sudden change in the temper of speculation was the non-confirmation of rumors current yesterday conserving the alleged embarrasment of leading firms and capitalists. Buying was increased by advices regarding resumption of work by many iron rails and steel works and by statements that the Pennsylvania Railroad Company would act in conjunction with the coal combination, and by further advance in grain.

at \$4500.

NEAT 6-room cottage on 12th st., with bath, city water, marble mantels and stationary washstand; lot 50x190 feet, with 20 bearing orange. peach, apple, and other trees. Price

orange, peach, apple, and other trees. Price has always been \$4000; reduced this day to \$3700.

One of the best investments in property on my books is the lot cor. Hill and 6th sts., 120x165 feet, with three 2-story buildings of 6 rooms each and two small cottages, leaving the corner vacant. This pays \$1200 a year above all expenses, and excluding the corner lot is equivalent to 16 per cent. net on the investment. By improving the vacant corner at an expense of \$5000 the property will pay 25 per cent on \$17,000. The price as the property stands is only \$12,000.

[6] AGRES one-half mile outside city; 325 orange trees it years old, 150 spean, 75 apple, pear, prune, neutarine, walnut and quince trees; 5 acres vineyard, bearing; house of 4 rooms, new; 2 horses, bred, and buggy. This is a splendid property, and cannot be surpassed for a suburban home, while it is the chaspest property, all things considered, in the vicinity, \$9600.

Lovely San Gabriel Valley, splendidly improved; 650 orange trees, 150 lemons, 300 lime, 150 apple, 80 pear, 80 pears, 150 peach, 15 apple, ouse of 4 rooms, and finished, b that pays the second of the property and very chesp, at \$15,000.
